

Sponsoring a teddy bear for \$100 is an expression of caring from our community

Show children you care

Established in 1905, the Kingston General Hospital Auxiliary supports patients and families every day through its services. Fundraising is a vital function of the Auxiliary, which donates almost half a million dollars to the hospital each year. All funds raised through the Teddy Bear Campaign support children and youth.

The Kingston Health Sciences Centre Pediatric Program offers a wide range of services at both the Kingston General Hospital (KGH) and Hotel Dieu Hospital (HDH) sites.

The KGH Pediatric Unit provides medical, surgical, oncology and intensive care services for infants, children and youth from across Southeastern Ontario as well as those from the James Bay district. KGH's Neonatal Intensive Care Unit (NICU) is one of six provincial perinatal centres caring for premature to full-term babies with a variety of complications. The Children's Outpatient Centre (COPC) at HDH provides a unique walk-in emergency clinic as well as specialized clinics for pediatric patients.

The Pediatric Program team includes nurses, physicians, patient care assistants, dietitians, speech language pathologists, respiratory therapists, physiotherapists, occupational therapists, pharmacists, Child Life specialists, social workers, spiritual care providers, volunteers and support staff.

Show children you care

Caring creates a work of heart!

Sponsoring a teddy bear for \$100 is an expression of caring from people in our community. Caring creates a work of heart!

All sponsored bears will be displayed in the Watkins Lobby at KGH wearing a tag acknowledging your kindness. At the end of the campaign, the teddy bears will be given to children in need of comfort during their hospital visit.

As a thank you for your generosity, upon request, you will receive a souvenir teddy bear.

The KGH Auxiliary Teddy Bear Committee is pleased to present Show Children You Care, the 2017 Teddy Bear Campaign in support of the Pediatric Program at the Kingston General Hospital (KGH) and Hotel Dieu Hospital (HDH) sites of Kingston Health Sciences Centre.

Proceeds from the sponsorship of these bears will go towards the purchase of both an electrocardiogram machine, which will aid in the early detection of many heart-related conditions in young patients, and syringe pumps, which safely administer medication with very high accuracy and precision.

Your support will make a difference in the lives of the many children treated at KGH and HDH, who face challenges we cannot imagine. Sponsoring a bear helps provide much-needed patient care equipment and delivers a message of hope and comfort in the form of a teddy bear.

Thank you to Royal Canadian Legion Branch 560 and Ladies Auxiliary to RCL Branch 560 whose generous financial contributions cover the cost of this year's campaign.

Yes! I would like to support patient care needs and bring comfort to a young patient by sponsoring ___teddy bear(s) at \$100 each.

Payment:

Debit Cash Cheque
